

DIRECT ACCESS DIAGNOSTIC TESTING

DIRECT ACCESS... DIRECT RESULTS... FOR YOUR HEALTH

Direct Access Diagnostic Testing is available at Meeker Memorial Hospital. Manage your health with quality, low cost testing and have the results provided directly to you.

- A physician's order is not required for these tests.
- Results will be sent directly to you. It is recommended they be shared with your health care provider.
- Critically abnormal results will be referred to an on-call physician.
- Diagnostic Imaging results will be read by a radiologist.
- Records will be maintained at the hospital.
- Anyone under the age of 18 must be accompanied by a parent or guardian.
- No insurance claims are submitted. Pre-payment required.
- Complete a brief registration and payment process at the Admitting desk upon arrival. (Cash, check or credit card accepted)

LABORATORY & DIAGNOSTIC IMAGING HOURS:

Monday - Friday from 7:30 a.m. to 5:30 p.m. and Saturday
7:30 - 9:00 a.m. for Laboratory Testing (Walk-In/No Appointment)

Monday - Friday from 9:00 a.m. to 3:00 p.m. for Diagnostic Imaging

For Diagnostic Imaging, call (320) 693-4519 to schedule an appointment.

DIRECT ACCESS DIAGNOSTIC TESTING SERVICES AT MMH

Heart disease, diabetes and stroke are examples of conditions in which early detection is crucial to intervention and effective management. Meeker Memorial Hospital offers a screening program through Laboratory Testing and Diagnostic Imaging to help identify risks associated with a variety of health conditions. You can then share these results with your health care provider and establish a plan to better manage your health.

LABORATORY DIAGNOSTIC TESTING

ALT (Liver enzyme).....	\$10.00
BLOOD TYPE (ABO and Rh).....	\$20.00
COMPREHENSIVE METABOLIC PROFILE (CMP - general health screen).....	\$30.00
(sodium, potassium, chloride, CO ₂ , glucose, BUN, creatinine, total protein, albumin, calcium, total bilirubin, AST, ALT, alkaline phosphatase)	
CHOLESTEROL (Included in Lipid).....	\$10.00
CRP (general infection/inflammation).....	\$20.00
DIABETES MONITORING PROFILE (ALT, Hgb A ₁ C, Lipid Profile, Microalbumin, Creatinine).....	\$80.00
DIRECT BILIRUBIN	\$10.00
GLUCOSE (blood sugar).....	\$10.00
HEMOGLOBIN (anemia).....	\$10.00
HEMOGLOBIN A₁C (diabetes monitoring).....	\$25.00
CBC WITHOUT DIFF (general infection/anemia screen).....	\$20.00
(WBC, RBC, hgb, hct, MCV, MCH, MCHC, platelet)	
LIPID PROFILE	\$20.00
(cholesterol, triglycerides, HDL, LDL, VLDL) FASTING REQUIRED	
LIVER PROFILE (Included in CMP).....	\$15.00
(total protein, albumin, total bilirubin, AST, direct bilirubin, ALT, alkaline phosphatase)	
MICROALBUMIN (Urine).....	\$25.00
OCCULT BLOOD X 3 (colorectal screen) (Stool).....	\$10.00
PREGNANCY TEST (urine).....	\$15.00
PROTIME / INR (coumadin monitoring).....	\$15.00
PSA (prostate cancer screen).....	\$30.00
STREP SCREEN (PCR, no backup culture required).....	\$40.00
TSH (thyroid monitoring).....	\$30.00
URIC ACID (Gout screen/monitor).....	\$10.00
URINALYSIS (Infection screen).....	\$20.00
VITAMIN D (run Monday, Wednesday, Friday).....	\$45.00

DIAGNOSTIC IMAGING TESTING

The following tests are available at Meeker Memorial Hospital Monday through Friday from 9:00am to 3:00pm. Appointment needed.

CAROTID ARTERY SCREENING	\$75.00
Shows the build-up of fatty plaque in the carotid arteries which can lead to a stroke. Procedure: A gel is applied to your neck over the carotid arteries. A scanning probe will be placed on your neck to visualize the carotid arteries.	
ABDOMINAL AORTIC ANEURYSM SCREENING	\$75.00
Screens for any irregularities in the abdominal aorta. Procedure: A gel is applied to your abdomen. A scanning probe will be utilized to examine the abdominal aorta.	
*Carotid Artery Screening and Abdominal Aortic Aneurysm Screening for \$125.00 if scheduled at the same time.
